

- **High Ionized Hydro-Peroxide Output**
- **New Enhanced Catalyst With Zinc For Faster Kill Rates**
- **Kills surface bacteria and eliminates odors**

The Pure Air<sup>®</sup> by Sun Glow is the next generation of IAQ technology. Sun Glow is pleased to offer Pure Air<sup>®</sup> with a higher Ionized Hydro-peroxide output, which gives faster kill rates for microbials in the air as well as on surfaces. Also, this higher output drops more particulate from the air bringing relief to those who suffer from allergies and other respiratory issues.

#### **Quick Release Feature**

The Pure Air<sup>®</sup> now features a quick release design for easy removal of the housing to allow easy replacement of the Pure Air<sup>®</sup> cell.

#### **Adjustable Output**

The Pure Air<sup>®</sup> incorporates an adjustable shroud, which allows the customization of the AOP output.

The Pure Air<sup>®</sup> by Sun Glow is designed to eliminate sick building syndrome risks by reducing odors, air pollutants, VOCs (chemical odors), smoke, mold, bacteria and viruses. Sun Glow Pure Air<sup>®</sup> units are easily mounted into air conditioning and heating systems air ducts where most sick building problems start. When the HVAC system is in operation, the Pure Air<sup>®</sup> unit creates an Advanced Oxidation Plasma consisting of Ionized Hydro-peroxides, Super oxide ions and Hydroxide ions. All are friendly oxidizers. By friendly oxidizers, we mean oxidizers that revert back to oxygen and hydrogen after the oxidation of the pollutant.

### MICROBIALS

### ODORS

### PARTICULATE

### SPECIFICATIONS

•Hydroperoxide Ion distribution:	Distributed through air handler
•Super Oxide Ion distribution:	Distributed through air handler
•Hydroxide Ion distribution:	Distributed through air handler
•Installation:	Installed in HVAC duct or plenum
•Electrical:	24 VAC 0.7 Amps 17 Watts
•Materials:	Aluminum and Polymers
•Pure Air <sup>®</sup> Cell Replacement	Recommended after 25,000 hrs (2 years)
•HVAC Blower Size	1,000 - 6,500 CFM
